ZOR GANG ROADMAP

We don’t reveal steps. We trigger decisions.

PHASE 0 "The Noise Layer"

You saw something.
You don’t remember where.
A masked figure. A reel. A coin.
You blinked. **$ZOR existed.**

“Was I early… or was I chosen?”

📌 You feel like it’s already moving
📌 But you can’t find the source
📌 Your feed is quiet — but your mind isn’t

PHASE 1 "The Entry Test"

No one tells you to buy.
No one asks you to join.

Yet you do.
You copy the address.
You tap into Telegram.
You're already inside.

“If you’re asking what’s next… you’re not ready.”

First move filters the watchers from the actors
You feel behind, even if you're early
Everything you see feels intentional — but no one’s confirming it

---

PHASE 2 "The Mirror Phase"

The content looks like flex — but it’s not.
It’s a test.
Will you get jealous…
…or curious?

📱 Some just scroll.
📱 Some screen record.
📱 Some buy more.

“They’re not showing off. They’re showing what’s possible.”

🔑 Your mind begins justifying the decision you haven't made yet

---

PHASE 3 "The Trust Glitch"

Something weird happens.
Someone gets rewarded — and no one explains why.
A wallet gets burned.
An address is pinned.
A reel vanishes in 30 minutes.

You start watching more closely.
You never want to miss again.

"You'll either understand now — or wish you did later."

🚪 This is where most people either fade out…
…or become lifers

PHASE 4 "The Vault Phase"

Certain buyers have access.
You don't know how.
They don't talk about it.
But they're still here.

You see clues in backgrounds.
QR codes. Wallet names.
People start DMing each other strange messages.

You stop asking "what's the next step."
You start asking:

"What am I not seeing?"

Final Trigger

ZOR has no roadmap.
ZOR is the roadmap.

We don't guide you.
We design around your curiosity loops.
We want you confused, watching, addicted.

You're not buying to get rich.
You're buying because you feel something's unfolding —
and you refuse to miss it.
